

Draft Work Programme n°3 January-June 2022

Guiding theme: "Bringing the Alliance forward on the international stage"

Chaired by: CNRS/Sorbonne Université

1. Priority: Heighten face-to-face engagement and exchanges with Science Diplomacy communities around Alliance topics and actions

Looking outward, the topical work and potential of the Alliance should be brought to the attention of interested stakeholders. Looking inward, now that an internal communication culture has been established, personal acquaintance should be facilitated (to the extent possible under pandemic conditions). To complement the Alliance's <u>ongoing strong digital presence</u> and <u>continuing visits and meetings</u>, the French chairs offer the platform of the two InsSciDE Open Conferences¹ taking place in the first semester of 2022. Furthermore, Alliance members are requested to propose opportunities for interaction – events, important contacts, media channels – which will be collated and considered.

¹ Alliance members will be responsible for their own costs in principle. No conference fee is charged. A certificate of participation in the official Alliance sessions/Open Conference is delivered.

Five workshops were proposed in order to obtain this label: Innovation & Technoscience Diplomacy; Space Diplomacy; Environmental Diplomacy; SD Education & Training; SD Communication. A structured task will be proposed so that all workshops can then report in plenary and add to the	open to self- registered and invited stakeholders (practitioners, experts, academics)

2. Priority: Deepen topical reflection and support Working Group progress

In this second year the Working Groups (WG) must continue their internal reflection and development at their own pace. At Alliance level we can seek to support progress by reviewing together the general profile of activities, identifying any gaps and encouraging synergies. We may also pinpoint new external demands that Alliance members find pertinent to address, including opportunities or requests coming from global networking partners and advisory partners.

3. Priority: Consolidating Alliance policy and practices

With a full year of experience, we can take stock of our procedures and finetune our policy, in the goal of both achieving Alliance objectives and maintaining a sustainable task load for chairs and media managers. The governance structure Trio of Chairs will be adjusted with an eye to including and supporting the next institutions in line to chair. This priority forms a continuity with the 2021 activities of the Trio of Chairs to develop and shape the Alliance.
